1. Overview

Nutch is open source web-search software. It builds on [Lucene Java](http://lucene.apache.org/) (<http://lucene.apache.org/>) , adding web-specifics, such as a crawler, a link-graph database, parsers for HTML and other document formats, etc.

For more information about Nutch, please see the [Nutch wiki](http://wiki.apache.org/nutch/). (<http://wiki.apache.org/nutch/>)
